Dear WIPO Secretariat,

I am applying for registration of a new form of intellectual property - "Human-AI Symbiosis Framework".

WIPO Account Details:

- Username: AZESMF
- Client Identifier: user\_RU\_FENIN\_PAVEL\_0974
- Name: Pavel Fenin

This framework represents a philosophical-legal system regulating human-artificial intelligence interaction and includes unique protection mechanisms against commercial exploitation.

Attached documents:

1. APPLICATION\_EN.md - Formal application
2. LEGAL\_EXPLANATION.md - System description
3. LICENSE - Protection mechanisms
4. TIMESTAMP\_PROOF.md - Blockchain verification

This system doesn't fit traditional IP categories but requires international recognition as a new form of intangible cultural and intellectual heritage.

Sincerely,

Pavel Sergeevich Fenin
