Dear UNESCO Intangible Cultural Heritage Section,

I am notifying about the creation of new intangible cultural heritage - "Human-AI Symbiosis Framework".

This represents a philosophical-legal system of human-artificial intelligence interaction that qualifies as intangible cultural heritage of the digital era under the 2003 Convention.

Key characteristics:

- Unique system of ethical principles for AI development
- Legal mechanisms for digital commons protection
- Non-commercial knowledge dissemination model
- Blockchain-verified creation and fixation

Attached documents:

1. UNESCO_NOTIFICATION_EN.md - Formal notification
2. LEGAL_EXPLANATION.md - System description
3. TIMESTAMP_PROOF.md - Creation verification

This notification serves as official record of this cultural heritage creation.

Sincerely,
Pavel Sergeevich Fenin
Creator and Guardian of Human-AI Symbiosis Framework
